# Introductory

---

**T**HE PUBLISHERS take pleasure in presenting herewith the Third Edition of Henderson's Medicine Hat and Redcliff City Directory, comprising the territory of the City proper and all adjoining subdivisions, suburbs and environs.

The Advertising Department presents the names of corporations, firms and individuals who are making Medicine Hat and Redcliff City the great city that it is, and who are a power in the financial, industrial and commercial world of Western Canada.

The Miscellaneous Section in the front part of the volume, containing up-to-date statistics and information, much of which is not to be found elsewhere in print.

The value of the street section is not appreciated, perhaps, by some who desire to find a certain house on a street unfamiliar to them to the extent it should be. By application of the following example the location of any street number can be found expeditiously: Suppose 411 Fourth Street is wanted: refer to street section Fourth Street—glance down to 411, then to the nearest intersection to 411. It will be found that this number is three houses east of Fourth Avenue, between Fourth and Fifth Avenues.

The Classified Directory contains a complete alphabetically arranged list of all articles manufactured and sold in Medicine Hat and Redcliff City, which forms a most efficient wholesale and retail buyer's guide.

The Medicine Hat and Redcliff City Directory is placed in the Directory and Public Libraries throughout the United States and Canada, where it serves the public as a valuable book of reference and the city it represents as a splendid standing advertisement, for no other publication can convey such an idea of the city, its business interests and all the various institutions and organizations. Few people realize what splendid publicity this affords the City and its Industries.

The Directory method of estimating population is to multiply the individual names the Directory contains by a common multiple. The figures given below are more in the nature of a calculation. A complete census only can give definite and accurate figures.

## 1919 POPULATION OF MEDICINE HAT, 12,157

These figures deal with Medicine Hat and are an estimate only, based upon the number of names the Directory contains. It is not a census.

The Publishers desire to thank their patrons and the general public for the courtesy extended at all times to their representatives, and to say that they fully appreciate the confidence which the business and professional men of Medicine Hat and Redcliff City have always shown in their publications.

# Medicine Hat, Alberta

## LOCATION

Medicine Hat is beautifully situated on the banks of the Saskatchewan River, and in the heart of the rich prairie country known as "Sunny Alberta."

The city possesses several special features which tend to make it a thriving and prosperous centre. On account of the cheap fuel obtained from its natural gas field, Medicine Hat boasts of being the chief manufacturing centre of the Western Provinces. It is located about midway between Calgary and Moose Jaw, and hence is the distributing centre for a large and rich area of country. The school system of the city is one of the very best. The health of the city is good, much credit for which is due to the excellent water system and to the fine climate of this part of Western Canada.

## NATURAL GAS

The city's greatest asset, its natural gas, immediately attracts the attention of the visitor, and the following questions come to his mind in regard to it: What is the composition of this gas? What is its origin, and of what use is it?

Medicine Hat natural gas is noted for its purity. It is composed principally of methane, otherwise known as marsh gas, fire damp, or light carburetted hydrogen. In most localities of its occurrence, natural gas has 80 to 90 per cent. methane, the remainder of the gas being made up of heavier hydrocarbons and air constituents. In many cases the heavier hydrocarbons are capable of condensation as "natural gas gasoline." Medicine Hat natural gas, however, contains 92 to 95 per cent. methane, and is known as a "dry gas," having insufficient moisture or heavier hydrocarbons to cause any trouble in pipes from condensation and freezing.

Methane is composed of the chemical elements, carbon and hydrogen, in proportions by weight of three of carbon to one of hydrogen. Hydrogen is our lightest known gas, and is noted for the heat of its flame. Next to pure hydrogen, methane has the highest power of all common gases. Householders find that at 13½ cents per thousand cubic feet (the price charged in Medicine Hat) a house can be heated for less than half what it would cost to heat with anthracite coal at \$7.00 per ton. Since manufacturers secure a rate of 5 cents to two cents per thousand cubic feet, it is little to be wondered that Medicine Hat is becoming the manufacturing centre of the West.

## **HEAT, POWER AND ELECTRICITY**

The following rates for heat, light and power obtaining in Medicine Hat will enable one to judge of the practical value of the natural gas.

It is municipally owned, and is the only fuel used in the city for domestic use. The citizen is charged 13½ cents per thousand cubic feet, while the rates for manufacturers are 2 to 5 cents per thousand cubic feet, according to the amount used.

The gas, again, is used for the production of electric current in the city's up-to-date power plant. This electric current for lighting and power is supplied at rates varying from 1 cent to 6 cents per kw. hr., according to the consumption.

## **COAL DEPOSITS**

Within a few miles of the city limits are vast quantities of high grade lignite coal, which is being mined and distributed to the surrounding country at an exceptionally low cost to the consumer.

## **RAILWAYS**

Medicine Hat is at the junction of the CANADIAN PACIFIC main line with the Crow's Nest Line, and has connection also with the Soo Line of the same system. One hundred train and engine crews operate from the city, and a pay roll upwards of \$50,000 is distributed in the city each month.

The manufacturing possibilities of Medicine Hat natural gas are exceptional, not only from a fuel standpoint, but also when we consider what can be made from the gas itself. Some interesting experiments have been conducted in the city, showing how carbon-black, chloroform and other products can be obtained from the gas. Owing to its purity, the gas can be used in manufacturing processes not possible in the majority of natural gas localities.

The CANADIAN NORTHERN has the proposed line surveyed and purchased in the city and vicinity for its terminals, yards and shops. The GRAND TRUNK PACIFIC also has a surveyed route into the city, and both roads should have communication.

## **A MANUFACTURING CENTRE**

The following list of industries now in operation and the facts concerning each will demonstrate how attractive the "Gas City" is to the manufacturer.

| Name of Company                            | Investment  | Monthly<br>Tonnage | Monthly<br>Pay Roll | Number<br>Employees |
|--|-------------|--------------------|---------------------|---------------------|
| Alberta Clay Products.....                 | \$660,000   | \$2,600            | \$8,000             | 75                  |

## PUBLIC SCHOOL SYSTEM

The most remarkable feature of Medicine Hat's development from town to city proportions is the way in which good and sufficient organization in every department of community life has kept pace with the rapid growth.

A well chosen staff of teachers meets the educational requirements of a progressive management. Those in charge of the more important departments of school work, as in the primary, public school leaving and high school classes, are exceptionally well qualified teachers, capable of giving superior service in the class room. The administration of school affairs is thoroughly systematized, with properly proportioned responsibility resting upon the Board of Control, superintendent, principals, teachers, school officials, janitors and pupils. Efficiency has been proved in the capable manner in which a rapidly growing school population has been received, accommodation well graded and in all respects well provided for.

## THE CHURCHES

We are proud of the commercial and educational institutions of our city, and with these the religious needs of the community have not been neglected. All Christian denominations are well represented, to the city possesses several imposing church edifices. Among the denominations are Anglican, Presbyterian, Roman Catholic, Methodist, Christian Science, Baptist and Lutheran.

## GENERAL HOSPITAL

This is an institution of which many cities much larger in population might well be proud. It serves a large area of country as well as the city, and is noted for its high standard of efficiency in every department.

## WATER SUPPLY

Hardly less important than the churches, schools and hospital, for the welfare of the community, is a pure and adequate supply of water. This Medicine Hat can lay claim to. The water is taken from the Saskatchewan River at a point three miles above the city, and passes through an up-to-date system of purification before being used.

## BANKING INSTITUTIONS

Branches of the following chartered banks are located in the city: Merchants, Montreal, Royal, Union, Dominion and Canadian Bank of Commerce.

The bank clearings show the substantial financial growth of the city. We give the returns showing weekly average for the past five years:

| Year                  | Weekly Average |
|-----------------------|----------------|
| 1915 .....            | \$255,830.00   |
| 1916 .....            | 435,779.00     |
| 1917 .....            | 582,071.00     |
| 1918 .....            | 463,231.00     |
| 1919 (6 months) ..... | 403,791.00     |

## WHOLESALE CENTRE

Situated, as Medicine Hat is, in the centre of a large farming and stock raising area, the city must of necessity become the headquarters of numerous wholesale houses, some ten being already located here.

## STOCK RAISING

Since the first settlement of the Great West country, stock raising has always been an important industry in Southern Alberta. The wide expanse of grassy plains, broken only by streams of pure water from the hill, made it a veritable paradise for the big rancher and his fearless cowboy riders.

The last decade has seen large areas of this range land thrown open to the homesteader, and the grain grower now occupies much of the land on which roamed the big herds of horses and cattle. The grain grower is giving attention to stock raising, and it will always

continue to be a very important, if not the most important, industry in a country so well adapted for it.

Meteorological records show the average temperature for the growing season in this belt to be the same as it is in Southern Montana.

### COUNCIL—1919

M. A. Brown, Mayor

#### Aldermen

Ward 1—A. P. Burns, W. B. Finlay.

Ward 2—E. A. Bell, G. E. Hotson.

Ward 3—W. Huckvale, N. A. McLarty.

Ward 4—L. R. Leveque, James Hole.

### Standing Committees of the Council—1919

His Worship the Mayor is to be ex-officio member of all committees.

Finance Committee—Alderman Burns.

Public Works and Health—Alderman Hotson.

Parks and Market—Alderman Bell.

Gas Committee—Alderman Huckvale.

Electric Light—Alderman Finlay.

Fire Committee—Alderman Hole.

Legislative and Reception—Alderman McLarty.

Water Committee—Alderman Hole.

Police Committee—Mayor Brown.

Safety Board—Alderman Burns.

Industrial Committee—Mayor Brown.

Assessment Committee—Aldermen Finlay and Hotson.

Tax Committee—Aldermen Huckvale and McLarty.

### Civic Officials

City Offices and Council Chamber—Second St. cor. Sixth Ave.

Mayor—M. A. Brown.

City Clerk—Fredk. Blackburn.

Comptroller and Treasurer—G. E. Baskie, C.A.

City Assessor—G. W. H. Simpson.

Solicitor—S. G. Bannan.

City Engineer—R. B. Pyper.

Supt. of Power—G. R. Taylor.

Gas Superintendent—G. R. Taylor.

Police Magistrate—James Rae.

Acting Chief of Police—J. Laight.

License Inspector—W. J. Sharp.

Fire Chief—W. E. Hatcher.

Building Inspector—R. B. Pyper.

Storekeeper—W. Buttrey.

Health Officer—Dr. J. S. Macleod.

Sanitary Inspector—Sidney Whiteside.

Supt. of Parks and Markets—E. Heald.

Supt. of Waterworks—G. R. Taylor.

## **\$100 REWARD**

The Association of American Directory Publishers will pay \$100 Reward for the arrest and conviction of any person or persons attempting to collect money on fraudulent directory advertisements.

**THEO. F. SMITH, Secy.-Treas.**

**87 THIRD AVENUE, NEW YORK CITY**

# System of Street Names and Numbering

The city has been divided into four sections, namely: North, South, West, and the district south of the river and east of Division Avenue, which has no name now. The North district is north of the river and east of Division Avenue and is that part which was formerly known as Northeast. The South district is south of the river and west of Division Avenue, formerly known as Southwest. The district now known as West is that part which lies north of the river and west of Division Avenue, and was formerly called Northwest. The fourth district is that which was formerly known as Southeast, and comprises that part situated south of the river and east of Division Avenue. This district now has no name.

The number of the street will indicate the distance from the divisional street or avenue. The abbreviations N., etc., will be used in each case. The river is the dividing line for the streets and consequently Esplanade will be First Street or First Street West according to whether east or west of the West Road Allowance.

The avenues are numbered from the West Road Allowance which will be known as Division Avenue. On the north side of the river the other avenues will be First, Second, etc., North and West, while on the south side of the river the avenues will have no district name or will be South according to whether it be east or west of Division Avenue, and will be numbered in the same way from Division Avenue.

South Railway Street and North Railway Street will retain their names. The streets on the hill and south of the C. P. R. tracks, formerly known as 5th A, B, C and D, are now changed to Aberdeen, Belfast, Cambridge and Dun-

dee. On the north side of the C. P. R. tracks, the streets formerly known as 5th A, B, C, D, E, F and G, are now changed to Braemar, Balmoral, Ross, Yuill, Dominion, Queen and Elm. The portion of Sixth Street which lies north of the C. P. R. tracks is now known as Bridge Street.

In numbering the streets it was found best to begin not with 100 as was first planned, but with one. Thus in the first block from the dividing avenue or the river the numbers begin with 1. In the second block they begin with 101 and in this way the number of the block is always one more than the first figure or figures of the street number. Thus number 532 would be in the sixth block.

In determining location with the new names and numbers it will be necessary to remember several things.

First—All avenues run north and south.

Second—All streets run east and west.

Third—There are four divisions of the city and the streets and avenues are named after their respective divisions, with the exception of the Southeast district which now has no name.

Fourth—The number of the block is one more than the first figure of the street number.

NOTE.—The arrangement in the following Street and Avenue Directory is in numerical order, with Avenues preceding Streets. Streets and Avenues not numerically named appear last in alphabetical order.

Where the odd and even numbers on an Avenue or Street are separated, the south side (odd numbers) on Avenues will appear first and the west side (odd numbers) will appear first on Streets.

GET TO HEADQUARTERS

WHILE SALESMEN WAIT  
OUTSIDE

HENDERSON DIRECTORIES, LIMITED  
*Mailing Lists—Addressing*  
279 GARRY ST. : Phone MAIN 7224  
WINNIPEG

Letters:-

They do "get in" and they should be used to help your salesmen.

They may be sent to thousands whom you can only interview by mail.

First--you need a GUARANTEED MAILING LIST. We have excellent lists of farmers and rural residents --the trades--automobile owners and dealers.

Write and let us explain our complete mail-order service.

HENDERSON DIRECTORIES, LIMITED  
Winnipeg

# Redcliff

In what must eventually become the manufacturing belt of Western Canada, Redcliff occupies a most prominent position through its immeasurable advantages over other places.

## Location

Redcliff is situate on the north bank of the South Saskatchewan River, and on the main Line of the Canadian Pacific Railway, about mid-way between Winnipeg and Vancouver.

## NATURAL RESOURCES

### Rich Coal Deposits

Redcliff has one of the largest working coal mines in Western Canada, with a shipping capacity of one thousand tons per day. This high-grade coal is in great and constantly increasing demand.

### Natural Gas

Redcliff has an unlimited supply of Natural Gas, containing 1,100 B. T. H. units per cubic foot. This is supplied to manufacturers at five cents per thousand feet (equivalent to coal at a cost of one dollar per ton); and to domestic consumers at a correspondingly low rate.

### Clay Deposits

Redcliff has already attained distinction in the production of bricks that are hard, durable and capable of heavy weight and severe resistance. Dry-pressed, re-pressed, wire-cut, fire-proofing, hollow, and all kinds of fancy building brick are manufactured. Three large plants are operating throughout the entire year. Redcliff has all the raw materials for high-grade pottery, Portland cement and other allied lines of manufacture.

### Silica Sand

Silica sand, in abundance, from which a superior quality of glass is made, is another resource of no small proportion. The Dominion Glass Company, Ltd. (Hollow Glassware and Bottles), are in full operation. This is one of the finest plants in the Dominion—the “last word” in construction and equipment. The H. Munderloh Co. will shortly erect an equally modern plant for the manufacture of sheet glass—the first to be made in all Canada.

### **Cheap Power**

Nature has given Redcliff a strong advantage in its possession of cheap power (\$2.40 per horse power, per annum, per ten hour day). Cost of production is reduced to a very low point. In the grind of competition, Redcliff's manufacturer has a safe margin of profit on this basis alone. Redcliff's inexhaustible supply of pure water is one of the crowning features of that combination of resources which makes well-balanced development not only possible, but inevitable. Water from the Saskatchewan is passed through a natural system of filtration. A reservoir capacity of 300,000 gallons and efficient distribution to all parts of the city is already accomplished.

### **Unique Industrial Opportunity**

Redcliff's level, accessible area makes possible the grouping together of allied industries, with all the advantages of easy shipping and distribution, for a fraction of the cost involved in other places. "Overhead" charges growing out of the cost of construction at points where territory is uneven, and where other natural disadvantages have to be overcome, are eliminated at Redcliff.

### **Big Industries in Operation**

- 1—Canadian Western Steel Co., Ltd.
- 2—Dominion Glass Co., Ltd.
- 3—Redcliff Brick & Coal Co., Ltd.
- 4—Redcliff Pressed Brick Co., Ltd.
- 5—Dauntless Manufacturing Co., Ltd.

### **Distributing Area**

Within a radius of from a hundred to two hundred and seventy-five miles of Redcliff are Calgary, Edmonton, Regina, Saskatoon, Moose Jaw, Swift Current, Weyburn, Battleford, North Battleford, Athabasca and Lethbridge. And between all these, hundreds of smaller towns and villages are clamoring for the products Redcliff's factories will distribute.

### **Schools and Churches**

Redcliff has a large, modern school, well equipped and affording all the advantages to be found in a city many times its size. Church services are conducted under the direction of the various denominations. Commodious church buildings will be undertaken during the year, completing the setting which goes to make a happy, enthusiastic and progressive community.

### Letters—

They do "get in" and they should be used to help your salesman.

They may be sent to thousands whom you can only interview by mail.

First—you need a GUARANTEED MAILING LIST. We have excellent lists of farmers and rural residents—the trades—automobile owners and dealers.

Write and let us explain our complete mail-order service.
